NEW AGE KARTING

## **UPDATE FOR ALL ROTAX COMPETITORS -#2 Jan 2008**

### **MOJO TYRES - CLARIFICATION**

I would just like to clarify the MOJO tyre situation so that there is no confusion.

The AKA have now finished the official testing of the MOJO tyre and we have been verbally informed that the testing went very well.

At this moment we are still waiting for the AKA to officially approve the use of MOJO D2 tyres from 1<sup>st</sup> March, 2008. We are not expecting there to be any problem with this but just felt it was important to make this clear so that we are not seen to be preempting the AKA decision making process.

Therefore events sanctioned by IKD for National Rotax Ranking points held before the official tyre changeover date will be run as per the AKA manual on the Bridgestone YJC tyre. When the decision is made to move to MOJO D2 tyres all sanctioned events from the changeover date will be run on the MOJO D2 tyre.

### **GOOD FEEDBACK**

We have been very encouraged by the amount of feedback we have received about the ranking system. It seems like our belief that it delivers a fair and meaningful system for all competitors is correct. Clubs are starting to return forms to IKD to have events sanctioned and it is our aim to have events sanctioned in all areas.

Please make sure your club is applying for events so that you can be part of the ranking system

Further updates will be published regularly on the IKD website and in the karting media.

Thank you for your continued support of Rotax racing in Australia

Ian Black
